Jennifer Pellechio, M.B.A. – SWFRPC
- 2:15** **Recap: Top 3 Solar Best Management Practices**
Jennifer Pellechio, M.B.A. – SWFRPC
- 2:20** **Implementation: Examples, How-To, Reporting**
Meister Consultants Group
- 3:00** **Parting Comments**
Jennifer Pellechio, M.B.A. – SWFRPC

Solar Ready Challenge II Project

SWFRPC is one of the nine regional councils working with National Association of Regional Councils on the U.S. Department of Energy's Rooftop Solar Challenge II award. This project is intended to promote solar best management practices and implement more streamlined and standardized solar installation processes. This project is anticipated to result in a reduction of solar market barriers, fewer soft costs and a more streamlined and standardized process for solar energy implementation options. SWFRPC staff will report activities underway to develop enhanced engagement and implementation of best management practices, training curricula for solar infrastructure installation, and strategies for improved permitting and adoption.
